## A HOLE IN ONE

Golf Digest named the Boulders Resort & Spa one of the “Best Golf Resorts in the Southwest” in its Best Golf Resorts in the Americas Editor’s Choice awards. Since its 1985 opening, the resort has been noted for its excellence in design, amenities and its world-class golf course. “We are proud to be recognized among some of the country’s top-rated courses,” said Tom McCahan, director of golf operations at the Boulders. “We hope to receive their continued endorsement with plans to further enhance the golf experience and expand our golf academy offerings this year.” The club, located in Carefree, is open to members and resort guests.
